

SUGAR SHIP FOR NEW YORK
GROUNDS OFF CRISTOBAL

Steamer Themis from Philippine Islands Has Water in Three of Her Holds.

COLON, Panama, Nov. 22.—The

Norwegian steamship Themis, under charter to the Lucienbach Steamship Company of New York, on leaving Cristobal Tuesday night grounded on the west breakwater and is still stranded to-day. She is bound from Cristobal, Philippines, for New York with 11,250 tons of sugar. On leaving Cristobal she tried to avoid a small craft between the ends of the east and west breakwaters and the quai-

termaster, evidently misunderstood orders. Holds No. 1, 2 and 3 are full of water. A diver is making an investigation. The Dutch steamer Van Hogendorp, which sailed from New York Nov. 5, is reported at Puna Island, near Guayaquil, Ecuador. The American ship Aryan, which left Coquimbó, Chile, Nov. 8 for Tacoma, and returned to Coquimbó in tow Nov. 15, is leaking badly. The cargo must be discharged as the leaks cannot be located.

PARTY, NOT A WHIPPING.
AWAITS MISSING BOY WHO
GOT SCHOOL BAD MARK

JOE JURBALA

Two weeks ago Joseph Jurbala Jr., fourteen years old, brought his school report home to his mother, and since no one has seen him at his home, at No. 69 West One Hundred and Fifty-eighth Street. According to the boy's father, his son's conduct was not of the best, and as soon as his mother saw the bad mark she scolded the boy and said: "You just wait until your father comes home; he will take good care of you!"

The boy ate a hearty meal and departed presumably for school, but he never reached there, neither did he come home that night for what his mother promised his father would give him.

A description given the police shows the boy to have been dressed in dark trousers, a blue coat, cap, Boy Scout shoes and black stockings. He was 4 feet 2 and weighed about 100 pounds. Parents of the missing boy say that a party and not a whipping awaits him if he will come back.

STATEN ISLAND NOTES.

An action brought by J. Sterling Drake against the garbage contractors to compel them to carry out a contract to purchase Pralls Island from Drake was tried before Supreme Court Justice William J. Kelly in the Borough Hall, St. George, yesterday. The contractors' defense was that Drake was unable to deliver them title. Judge Kelly reserved decision and set Dec. 9 as a date for further argument.

There will be a hearing before Dock Commissioner Smith in his office at Pier A, Manhattan, this afternoon at 3 o'clock, to consider a proposed new plan for the improvement of the waterfront from Canal Street, Stapleton, south to Marathon Avenue, op-

MANCHESTER ACQUITTED
OF CHARGE OF DISHONESTY

Indicted for Giving Check for Rugs Without Telling Dealer He Was a Bankrupt.

LONDON, Nov. 21.—The Duke of Manchester has been acquitted in the London Sessions, where he had been indicted on a charge of obtaining two Turkish rugs valued at \$225 from a Belgian woman dealer without having informed her on giving her his check that he was an undischarged bankrupt.

Manchester met the woman in Philip Monckton's dressing room at the Alhambra Theatre, where he acted as interpreter for her in dealing with Miss Monckton and other vaudeville actresses, after which he bought the two rugs, giving in payment a check

dated a week later. When presented at the bank, it was refused.

The Duke testified that he had warned the rug dealer of his bankruptcy, adding that he had been disappointed in not receiving \$2,500 for credit on his account.

Nuxated Iron to Make New Age of
Beautiful Women and Vigorous Iron Men

Say Physicians—Quickly Puts Roses Into The Cheeks of Women and Most Astonishing Youthful Power Into the Veins of Men—It Often Increases the Strength and Endurance of Delicate, Nervous, "Run-Down" Folks 200 Per Cent. in Two Weeks' Time.

A WONDERFUL DISCOVERY WHICH PROMISES TO MARK A NEW ERA IN MEDICAL SCIENCE.

Since the remarkable discovery of organic iron, Nuxated Iron or "Per Nuxate," as the French call it, has taken the country by storm. It is conservatively estimated that over five million persons daily are taking it in this country alone. Most astonishing results are reported from its use by both physicians and laymen. As much as that doctors predict that we shall soon have a new age of far more beautiful, rosy-cheeked women and vigorous, iron men.

Dr. King, a New York physician and author, when interviewed on the subject, said: "There can be no vigorous iron men without iron. Pallor means anemia. Anemia means iron deficiency. The skin of anemic men and women is pale. The flesh flabby. The muscles lack tone; the brain fails and the memory fades and often they become weak, nervous, irritable, dependent and melancholy. When the iron goes from the blood of women, the roses go from their cheeks."

"In the most common foods of America the starches, sugars, fat, eggs, cereals, puddings, rice, white bread, molasses, biscuits, macaroni, spaghetti, tapoca, eggs, farina, degenerated cornmeal, no longer is iron to be found. Refining processes have removed the iron of Mother Earth from these impoverished foods, and silly methods of home cooking, by throwing down the waste pipe the waste in which our vegetables are cooked, are responsible for another grave iron loss."

"Therefore, if you wish to preserve your youthful vim and vigor to a ripe old age, you must supply the iron deficiency in your food by using some form of organic iron, just as you would use salt when your food has not enough salt."

Dr. Bauer, who has studied abroad in great European medical institutions, said: "As I have said a hundred times over, organic iron is the greatest of all strength builders. If people would only take the patent medicines and medicines concocted and take simple nuxated iron, I am convinced that the lives of thousands of persons would be saved who now die every year from pneumonia, grippe, consumption, kidney, liver, heart trouble, etc. The real and true cause which started their disease was nothing more nor less than a weakened condition brought on by a lack of iron in the blood."

or how far you can walk without becoming tired. Next take two five-grain tablets of ordinary nuxated iron three times per day after meals for two weeks. Then test your strength again and see how much you have gained. I have seen dozens of persons, run down people who were ailing all the while double their strength and endurance and entire families free of all symptoms of dyspepsia, liver and other troubles in from ten to fourteen days. One simply by taking iron in the proper form. And this after they had been given the most exhaustive information without obtaining any benefit. They don't take the full force of nuxated iron from accurate or true source of iron supply to save a few cents. The iron commanded by Mother Nature, as the red-colored matter in the blood of her children is, is what that kind of iron. You must take iron
